Re: Monthly Report – November 2009

Report Summary:

Crime data and monthly departmental activity is summarized with an historical perspective.

Comparative Data:

Overall, assaults decreased slightly, thefts increased 12.35 percent and there were no changes in burglaries, bringing the overall total of the November Uniform Crime Index Offenses to 273 compared to 255 in October. The total offenses for 2009 is 2,840, 25 incidents less than at the same time in 2008.

Report Analysis:

There were 54 assaults reported; 5 of those were aggravated. Forty of these incidents involved family violence.

Overall, burglaries remained the same; habitation burglaries decreased by three incidents. Of the 21 habitation burglaries reported, force was used to gain entry in nine homes and the burglar entered through the garage or an unlocked door or window in three homes. There were no signs of forced entry so it is unknown how entry was made in two homes.

Building burglaries increased by three incidents. Four of the 14 buildings burglarized were in construction sites.

Burglaries of motor vehicles increased from 46 last month to 51 in November. Eighteen vehicles were entered by force, twenty-two vehicles were entered through unlocked doors and it is unknown how entry was gained in eleven vehicles (there were no signs of forced entry).
